LOCAL BRIEFS.

——Go hear the lecture.

——The Board of Aldermen meets this evening.

——Don't forget Gov. Vance's lecture on "The Scattered Nation," in aid of the Oxford Orphan Asylum.

——Trade was fair yesterday, considering the badness of the day. Cotton was firm, and the receipts light.

Lorentz & Ritter, of Baltimore, yesterday obtained from the State Treasury a renewal of their license for the sale of Acid Phosphate, for which they paid the sum of $500.

——The police say that merchants often fail to light their stores with unprotected windows at night, thus giving thieves opportunity to easily enter. There is no doubt of the fact that too little attention is paid this matter.

——The boys are beginning the sport of kite flying and the sky was dotted with these little sailers yesterday. The game of marbles, always popular at this time is also the rage, where there is no mud.

——Letters are held at the post-office addressed to Julius Robertson, Penny's House, N. C., no such place; W. Thanlette, Belleway, N. C., no such place; Mrs. Sallie Hinton, Wake county, no place; C. S. Farriss, Wake Forest, no stamp.

ROLLER SKATING.—Don't forget to go to the rink over Dodd's this evening, and see the fun or take part in it. There will be a lively crowd on hand, and a good time for everybody.

MEETING OF THE BAR.—There will be a meeeing of the members of the bar, at the Court House, at 2 o'clock to-day, to consider the report of the committee or resolvtions in regard to the late David M. Carter Esq

DANIEL G. FOWLE.
Chairman.

DEATH OF MRS. J. J. THOMAS.—The death of the estimable wife of Capt. J. J. Thomas, occurred yesterday morning. The deceased lady was a daughter of Thos. H. Briggs, Esq., and was widely known here. She was a member of the Salisbury street Baptist church, and from thence the funeral will be held to-morrow morning at 10:30 o'clock.

PERSONALS.—Col. John Wilder Atkinson and Col. John W. Gordon, of Wilmington, are in the city. Dr. Geo. Gillett Thomas, of the same place, is also here.

Messrs. J. C. MacRae and J. D. Williams, of Fayetteville, are at the Yarboro.

That admirable journalist and urbane gentleman, Henry A. London, Esq., editor of the Chatham Record, is in the city, where he is ever made we come

JOHN BROWN.—Dr. R. B. Haywood has in his possession one of the pikes used by John Brown in his celebrated raid and fight at Harper's Ferry. It has an iron head some 12 inches long, and a shaft of wood about 12 feet in length. It does not have a very warlike look in these days, and is rather a weapon to be laughed at by any one with a gun.

THE COLORED CHURCH FESTIVAL.—The congregation of the First Baptist church, colored, gave a dime party at Metropolitan Hall last evening, in aid of that church, which was well attended and largely patronized. Quite an amount was realized, and it will be continued this evening. They kindly sent the NEWS some refreshments which were discussed with pleasure.

BENEFIT PERFORMANCE.—At Durham on Tuesday evening, those two clever gentlemen Dr. Allen and Prof. Bodine, the popular ventriloquist, gave one of their characteristic exhibitions, for the benefit of that fine company the Durham Light Infantry. It was most successful, netting some $200 for the uniform fund. Mr. W. T Blackwell donated $100.

THE SICK IN THE CITY.—Maj. Engelhard, the Secretary of State, was very ill on Wednesday, but is now better.

Mr. Eugene Harrell was also very sick on Wednesday but was better at last accounts.

Col. J. P. H Russ was taken seriously ill several days since, threatened with paralysis. He is also reported no better.

REV. DR. C. R. VAUGHAN.—We were glad to see on our streets yesterday the Rev. Dr. Vaughan who is on his way to fill a Stated Supply, the pulpit of the Central Presbyterian Church of Atlanta, Georgia, from which the Rev. D. Leftwich recently resigned. Dr. Vaughan for several years filled the pulpit of the first Presbyterian Church of this city, with great ability and acceptance and he carries with him to his new field of labor the highest respect and affection not only of his late charge here, but also of our community.

SENATOR VANCE'S LECTURE.—This evening, at 8 o'clock, Senator Vance will deliver his famous lecture on the "Scattered Nation," at Commons Hall. This lecture is considered one of the most perfect of its kind, and its deliver does the subject justice. The lecture is one that must be heard attentively to be appreciated, and its finished style and beauty of description mark it as as one both pleasing and profitable. The proceeds are to be devoted to the benefit of that noble charity, the Oxford Orphan Asylum, and it is hoped and believed that the hall will be filled to its utmost capacity. Tickets may be had at the book stores and drug stores. Everyone should go and hear the lecture.

WAKE CRIMINAL COURT.—Court met at 10 o'clock Wednesday, His Honor, Judge Geo. V. Strong, presiding.

State vs. Rufus Sigmond. Assault and battery. Same as above.

State vs. John Morgan, Sion Lane and Wilson Warren. Assault and battery.

Pending the trial of the last case Court adjourned until 10 o'clock yesterday.

State vs. Charles Faucett. Assault with intent to rape. New trial granted.

State vs. Hilliard Rogers and James Allen. Affray. Submission. Judgment 60 days in the work house and costs, as to Rogers; Allen fined one penny and costs.

State vs. John Morgan, Sion Lane and Wilson Warren. Assault and battery. Verdict: Morgan, not guilty; Lane and Warren guilty. These two got each 20 days in work-house and costs.

A number of motions were heard and Court adjourned until to-day.

DEATH OF JOHN G. WILLIAMS, ESQ.—Mr. John G. Williams, President of the State National Bank, and one of the most prominent and beloved men of this city, died at his residence yesterday morning at 4:45 o'clock. He was born in the city of New York, on the 25th of December, 1827, and when a boy, removed with his parents to Raleigh. For many years he was the chief and trusted clerk in the Raleigh post office, and afterwards Secretary of the North Carolina Life Insurance Company.

Without the advantages of an education in schools, he acquired by close application to such books as came within his reach and at such times as he could spare from his business, a large fund of varied and useful information, and, in his intercourse with men, a large and extended knowledge of human nature, which served, in his after life, to achieve for him a remarkable success.

On the 5th Febuary, 1852, he was married to Miss Mariam Carson White, of Raleigh, who, together with seven children, survives him; and it is a coincidence not unworthy of mention that the only bridal attendants upon that marriage, now Mr. and Mrs. Carson Murray, of this city, were on the anniversay day of the marriage, watchers upon the sad and solemn scene which closed the happy married life whose happy commencement they had witnessed.

With the savings which habits of economy had enabled him to make, Mr. Williams engaged in the business of Banker and Broker and acheived a marked success thereat; and after the close of the late war he organized and conducted, as President and owner, the State National Bank of this city, one of the most prosperous and strongest banking institutions in the South.

Mr. Williams had such qualities as made him a universal favorite; and he will be universally missed and lamented in this city and section. By his wise management, thrift and industry, and without the aid of others, he rose rapidly to fortune, but his rise was not upon the hurt or ruin of his fellow men. It was an honest, legitimate success that always follows wise, honest and legitimate labor and industry. He was prudent and careful, but never close or oppressive, in his dealings. Of the thousands who had transactions with him, we have never heard aught of complaint against him. He was always polite, genial and kind, and charitable in heart, mind and hand. If he ever thought evil of his neighbors, his tongue never spake it; on the contrary, his expressions of opinion were always kind and considerate; and as for his deeds of benevolence and charity, they were constant and large. He had an especial sympathy for those who were honestly struggling to make their way in the world, and was ever ready to aid them to his utmost. He seldom erred in his estimate of men, and when he was assured, in his mind, of their capacity and honest worth, he backed his judgment with large pecuniary assistance. Two of the worthiest and wealthiest men of our city, when they were working hard and beginning to rise in the business world, at one time needed the command of money for a few weeks; and, as one of them remarked to the writer, "he honored our drafts without security to the extent of $45,000 and never dunned us for a cent."

Applications for benevolent and charitable purposes were never made to him in vain, and he always gave with a large handed liberality. One of his most prominent donations was one half of the sum sufficient to build and equip the large and handsome edifice known as "Science Hall" at Wake Forest College.

Mr. Williams was a member of the First Baptist Church of this city, and took a great interest in its support and prosperity. Other religious denominations also received his countenance, and warm encouragement and support, and all mourn his death with a sincere grief. The entire community feel his loss deeply and sympathize with the bereaved widow and children.

The funeral services will be held from the Salisbury Street Baptist church, at 3½ o'clock this afternoon.

WAKE COUNTY COMMISSIONERS.—The Board assembled at the Court House Wednesday. The following were drawn as jurors for the term of the Superior Court, beginning on the 17th inst:

FIRST WEEK:—Alex. Young, W. F. Sater, J. W. Myatt, Rufus Gardner, J. W. Purnell, Alex. Snellings, E. M. Perry, J. P. Chandler, T. S. Cozart, W. B. Carlton, Geo. W. Barbee, J. T. Dunn.

SECOND WEEK:—J. A. Honeycutt, L D. Baucom, Henry Pollard, C. D. Bunn D. P. Judd, G. R Bagwell, Tyrrell Lowry, L. H. Wood, C. C. Briggs, C. H. Beckwith, William Mitchell, W. J. May.

The Board elected Dr. J. B. Dunn physician to the jail.

Mr. Jacob Maynard was elected constable to the grand jury.

Mr. A. Andrew Green was elected Court crier.

A great amount of work was done in allowing orders, appointing road overseers, bridge building committees, etc.

Commissioner Allen offered the following, which was adopted:

Resolved, That the Board of Commissioners of Wake county deem it unjust to said county that it pay the costs, or any part thereof, in the case of the State vs. Swepson, and that the Solicitor of the Fifth Judicial District be notified of this action, and that the Board will not pay said costs unless compelled by law to do so.

The Board then adjourned until yesterday at 10 o'clock.

The Board resumed its session Thursday and closed its labors for this meeting by disposing of all business.

Maj. R. S. Tucker appeared before the Board and asked that the county tax on theatrical performances be reduced to $3, the same as on concerts. The Board declined, in view of the fact that a new revenue bill may be reported.

The time of the sheriff for settling county taxes was extended to March first.

A committee, consisting of commissioners Brown, Jones and Allen, was appointed, to examine into the management of the Poor and Work Houses, and make suggestions at next meeting of the Board.

The price allowed the sheriff for feeding prisoners confined in jail was reduced from 40 to 30 cents per day.

A large batch of orders were audited, and C. S. Mann and L. J. Atkins were appointed a committee to open a road from Apex to Barney Jones.

The bill of the special officer for the January term of the Superior Court was not allowed, the office having been abolished by the Board at the December meeting.

Bills for feeding jurors in civil cases, amounting to $30, were not allowed, the Board deeming it questionable whether the county was properly chargeable in such cases.

The Board adjourned until the first Monday in March.

SETTLING SHERIFFS.—Three sheriffs yesterday settled settled the taxes due the State by their counties, paying in the following sums:

L. M. Long, tax collector, Halifax county:	
Public taxes	4 309.00
Special "	4,154.30
Total	$8,464.30

Mr. Long was one of the first officers to send in the funds due, but on account of some charge for stationery, the matter was only settled yesterday.

C. C. Sanford, Davie:	
Public taxes	2,004 30
Special "	1,685 47
Total	$3,689.77
J. S. Johnson, Rockingham:	
Public taxes	4,436 15
Special "	3,473.62
Total	$7,899.77

THE SWEDISH LADY QUARTETTE.—A good audience heard the rather unique vocalization of this troupe, at Tucker Hall last evening. Their singing is in some respects pleasing and has perfect simplicity and naturalness that wins favor. Their songs in both Swedish, German and English were very well rendered. "Way Down upon the Suwanee River," was sweet, while "Baby Mine" was pretty. Prof. Freygang's performance on the harp was artistic, and was encored. The tronpe were received with considerable favor.

THE NEW GOVERNOR.—A reporter called upon Governor Jarvis yesterday and was kindly met and pleasantly greeted by that urbane gentleman, who seemed at home amidst his new honors, so well deserved and so admirably worn. During the day he received the congratulations of a constant stream of callers. In conversation, the Governor said that his first official act as Lt. Governor was to sign the act rotating the Judges, and now his first as Governor was to issue the commission as United States Senator to Governor Vance.

A Senator Getting Down.

Washington Republican.

The scrambling is vigorous, and the contest is increasing in bitterness, and we will glance at the battle-field of these Democratic gladiators. The first in order to be inspected is Senator Dennis, of Maryland, whose Senatorial term expires on the 4th of next March, and who will ask the Senate to return him to a subordinate position in the body of which he is now an honorable peer. We have great respect for Senator Dennis in his present position—i. e., we have as much respect for him as we can have for a gentleman who has made the mistake of taking up his bed and board with the Democratic party—but when we consider him as a candidate for the Secretaryship of the Senate, in which he now holds and honored seat, which, if successful, will enable him to lay aside his Senatorial toga and step down at once to subordinate position in the same body, our respect for him dwarfs, and we turn aside for the consideration of such an event with unpleasant emotions.

The best flour at the lowest prices can be bought at the new grocery store of W M. Saunders, Wilmington street He also defies competition on sugar, coffee, meal and bacon. If you want bargains call on him. Farmers are welcome to hitch their teams in his lot adjoining his store. *

Wood.

Get your wood of J. D Whitaker, at his yard at the western terminus of Hargett street. The pine wood which is cured by him in his special way is equal to oak, at considerable less cost to the consumer. His oak is the very best. *

REMOVAL OF CAUSES.

The bill to prohibit removal of causes from one county to another, in either Criminal or Superior courts, save where the ends of justice absolutely require it, special order, was taken up. Mr. Carter of Buncombe said it was an evil that should be put a period to. The bill strikes at one of the greatest evils that afflicts the courts and is a source of so much expense to the counties. It will promote speedy justice, will further the ends of the law, and will save thousands of dollars. Mr. Turner said causes were often removed to evade trial upon affidavits made merely to continue and delay. Mr. Carroll and Mr. Barringer favored the bill, while Messrs. Clarke and Norment thought the bill would work great injustice. Mr. Blocker thought it would be beneficial, and Mr. Lindsay took the same view.

Mr. Lockhart sent in an amendment that the bill shall not apply to cases of homicide, or assault with intent to kill. He favored the bill with this amendment. Mr. Caldwell opposed the amendment on the ground that it would destroy the effect of the bill to exempt the capital cases from its provisions. He deemed the bill itself as of the highest importance and benefit. Mr. Covington said the bill was unjust, and gave prisoners often but small chance, and might often cause the innocent to be punished. Mr. Turner opposed the amendment as did Mr. Carter. Mr. Davis of Haywood said that only the guilty moved their trials, at the expense of the country, while the innocent desired speedy trials. You may starve and stop your charitable institutions, but here is a wide field for opportunity to save a vast expense by passing the bill.

The amendment offered by Mr. Lockhart was then lost. The bill then passed its second reading. Upon the question to put the bill upon its final reading a great discussion arose, but the House decided not to so allow.

A message was received from the Senate transmitting S R 371, requesting Representatives in Congress to secure additional appropriations for the rivers of this State, and it was adopted.

S R 291, asking committees on Penal and Charitable Institutions to report as soon as possible, in order to aid the committee on Finance, passed.

H B 183, to provide for the better drainage of low bottom lands on Silver Creek, Burke county, passed.

Bill to repeal H B 422, what is known as the bonds-swapping bill, was tabled.

Bill to allow the Raleigh & Augusta Railroad to extend its road from any point between Raleigh and Hamlet to Charlotte, was made the special order for noon, Wednesday.

Bill to allow the election of a road surveyor for the county of Watauga, passed.

Bill to allow the Grand Lodge of Good Samaritans to establish a beneficial department, passed.

Bill to amend law in reference to liens on colts, passed.

Mr Vaughan moved that the use of this hall be granted His Excellency, Senator Vance, for the purpose of delivering his lecture upon the "Scattered Nation," on Friday evening.

At 1:30 the House adjourned.

SOME NATIONAL MATTERS.

Blackburn's Chances for the Speakership—Tilden Looming Up.

Correspondence of the Cincinnati Enquirer.

LEXINGTON, KY., Jan. 31, 1879.

Hon. John G. Carlisle, of Kentucky, is very generally regarded as among the foremost men in Congress. He is fresh from the Capital, where his associates are such as put him, in possession of the freshest and most reliable information upon current events and political topics. An Enquirer representative met this gentleman in Lexington last evening, and had the pleasure of a long and interesting conversation with him upon matters which engage the attention of the public. As no man is better informed as to what is transpiring at the seat of Government than Mr. Carlisle, some snatches of his newsy talk may be of interest to readers of the Enquirer.

THE SPEAKERSHIP.

The Kentucky Governorship had been under discussion. Mr. Carlisle paid fitting tribute to Thomas L. Jones and Judge Lindsay. From local topics the way was easy to national affairs. The mention of the Blackburn name brought up the Speakership.

"What was the state of the contest for the Speakership when you left Washington, Governor?"

"Mr. Blackburn is considered the contending man for the place with Randall. The friends of Judge House are urging him for it, but against his wishes. The fight will come between Blackburn and Randall. There are a great many influences at work to effect the result. Some Southern men in the House think that the South ought not to have the Speakership, nor anything else. They say it is too soon, and that if a Southern man was elected Speaker it would complicate the Presidential race."

"Now, I do not think that a Southern man, because he is from the South, should be rewarded with place any more than a man from the North; but if he is capable the fact of his being from the South should be no objection to him. No one doubts Joe Blackburn's ability, or doubts that he would make an admirable presiding officer. He is entirely acceptable to the great majority of the Southern members; but there are some who will vote for Randall against any body. They perhaps hold places under him, are satisfied with the existing order of things, and do not want a change, believing that, in ther cases, a change would be for the worse. Others, again, will vote for any body against Randall. They charge openly that he has used his place to advance his private interest. Of course I know nothing of the truth of these charges, but they are made, nevertheless. Blackburn is objected to on the ground that he impulsive, and that he might reward his friends at the cost of the public service. Well, Joe will stand by his friends, but Sam Randall rewarded his friends, and punished his enemies, too. The Southern Democrats can nominate the Speaker if they want to. There will be 150 Democrats in caucus, the large majority of whom will be from the South. It will take 76 to nominate. If she wants it, the South can have the Speakership."

THE PRESIDENCY.

"What will be the upshot of the cipher investigation, Governor?"

"That is hard to say. It is unquestionably intended to affect the race of the Democratic nomination for the Presidency. Mr. Tilden and his friends are urging the investigation. They claim to be able to show that Mr. Tilden had nothing to do with these telegrams, and that they were sent, if sent at all, entirely without his knowledge or authorit. They claim further that no one in any way officially connected with him in the canvass, or entitled in any degree to speak for him, had any thing to do with sending the cipher dispatches."

WOOLEY AND MARBLE.

"But, Governor, what becomes of Mr. Charles W. Wooley and Manton Marble?"

The Governor laughingly answered: "That's what they say now. If any persons undertook to speak for Mr. Tilden and his friends and for the Democratic Committee, as is claimed upon these dispatches, they acted entirely without authority, and were simply meddlers in a business in which their services were not wanted. If Mr. Tilden can prove these things it will go a long way toward strengthening him in popular favor.

TILDEN LOOMING UP.

"Do you think he will be a candidate for the nomination?"

I tell you Tilden is looming up. If he does not get the nomination himself he will name the man that does. The old man has a long head and knows what he is doing. He may be nominated by acclamation, there is no telling. Next to himself, I think he favors Bayard, who is very strong in the East, and perhaps could carry New York, New Jersey and Connecticut. Judge Field, a great personal friend of Mr. Tilden, is also spoken of as a possible compromise. Seymour has been spoken of, but he is threatened with softening of the brain, and the amount of exertion that would be required of him to make the canvass would kill him. He needs repose, which he could not have if he engaged in the excitementement of a Presidential contest. New York will doubtless be for Tilden for first choice. The breach between him and John Kelley has been closed, and they are now working together harmoniously. He would unquestionably carry the State against any Republican that could be named."

THAT LETTER,

"Would not his favoring the Electoral Commission rather make against him?"

"He says he never favored it, that he was opposed to it all the time. He claims that he wrote a letter to Hewitt, stating his objections to the Commission. This letter has been publicly referred to as the one suppressed by Hewitt. That gentlemen admitted having received it, but said that he had shown it to a few friends of Mr. Tilden, whom he thought ought to be made aware of its contents. He did not give it to the public, because he did not consider that it ought to be made public. I think, however," said Mr. Carlise, "that if Mr. Tilden had come on to Washington openly entered is protest against the Electoral Commission Bill, or had made known his wishes in some other unmistakable, way, it never would have been passed."

HENDRICKS.

"Would Governor Hendricks take the second place on the ticket with Tilden again?"

"No, I don't think he would. I met him in Washington a short time ago. He had come on with his wife, and he said, to attend a wedding. This was at the time that Voorhees was making his race for the Senate. We had a long talk together in the House I do not think he would accept second place on any ticket. It was some time before he could be introduced to accept the second place with Tilden before. He had rather wait, and bide his time and his chance for the nomination for the Presidency."

THURMAN.

"What are Senator Thurman's chance s?"

"Mr. Thurman is undoubtedly the strongest Western man that has been mentioned. He has been urged to run for the Governorship of Ohio. She is a Republican State, there is no doubt about that, but if it was considered that the election of Mr. Thurman to the Governorship was a stepping-stone to the Presidency, I believe he could be elected. The fact, I think, if he received the nomination for the Presidency, he would carry Ohio, anyhow, unless the Republicans nominated John Sherman, and then it would be a close and doubtful figth

DAILY NEWS

FRIDAY, FEBRUARY,..... 7, 1879.

J. B. HUSSEY, - Editor.

HUSSEY & JORDAN, - Pro's.

SENATOR RANSOM has expressed the opinion quite recently that the Senate will pass the House bill reducing the tax on tobacco to 16 cents. Our advices from Washington indicate a strong lobby of tobacco men at work, and they are represented as being sanguine.

THE TITLE to the "Durham Bull" trade-mark is still in litigation. Another hearing of the case will be had in Washington next Monday. Blackwell & Co. will be represented by Mr. Fuller, of the Raleigh bar, and Mr. Dupree, of the New York bar. The contestant, McElwee, will be represented by ex-Lt. Gov. Armfield, of Statesville, and W. H. Bailey, of Charlotte.

IT IS common to sneer at economy. The gabby and voluble Mills, of Texas, when the Democrats attempted to reduce the army the other day, charged them with having been "responsible for the death of General Custer, because of their miserable policy of economy, which seems to have filled all their ideas of statesmanship."

Views of Governor Jarvis.

All who heard our new Governor in his inaugural address on Wednesday last were impressed with the sound common sense and clear practical views of the man thus somewhat suddenly called to take the helm of State; and taking it from the hand of one who had guided it so safely and ably up to the moment he gave it up to a successor, to incur the risks of contrast between tried experience, and a new assumption of responsibility. One reflection must have forced itself upon the minds of all: and that was the need of abundant care and caution in filling up the gubernatorial ticket at the nominating conventions. The first man on the ticket receives the main share of solicitude and scrutiny; while the second, doomed apparently, in the course of events, to occupy a subordinate position, is, in popular estimation, more the subject of graceful compliment than of practical estimation. But several experiences of late years warn that the subordinate should be no way inferior to the chief; and the man who may be called upon, by various contingencies, to assume the chief magistracy, should be equal to the emergency.

Happily this is the case with Gov. Jarvis; and he takes rank at once with the highest of those who have occupied the Executive office; and, in the first declaration of his policy, dissipates any doubts that may have existed as to his abilities, and the sagacity, wisdom and freedom of his views.

We do not propose, *seratim*, to review the points of the inaugural. Our readers are well able to form their own opinions. But we may be pardoned at the expression of satisfaction at finding a coincidence of opinions with some formed by ourselves on subjects at present agitating the public mind. On that of retrenchment, we find the Governor endorses all that the NEWS has seen proper to express, giving that question a prominence at present above all others as the one, properly directed, which the State is to be relieved of the deadly pressure upon its vitality. But Gov. Jarvis very frankly drew the distinction between a retrenchment which was judicious, as well as necessary, and that which was so inconsiderate as to destroy what seemed to be its aim to cherish and protect. And we were especially pleased to see his demand for the integrity of the Agricultural Department, justly conceiving that any assault upon it wrs a deadly attack upon the best interests of the whole people.

The Governor pointed out with strong emphasis the temptations in the uses of public monies that led to waste, the disregard of small items, but which in their infinite multitude and multiplicity, heaped up those large aggregates which formed the great map of national debts and national or municipal embarrassments. Perhaps few of his auditors were prepared for the startling figures presented of State and county taxation, and the great disparity between the two; and it is a significant commentary on the two systems of management, that county burdens and county expenses exceed nearly ten fold those incurred on behalf of the State. The people suffer more by their own immediate home servants, or by errors in the management of their own local affairs, or in inefficient or vicious administration of justice than from any exactions made by the State. Some of the suggestions made by the Governor are worthy of the immediate attention of the Legislature. And one most striking common sense suggestion will commend itself to every practical mind in regard to the forms of indictments. Many a criminal has escaped his just deserts by a grammatical error, a misuse of a conjunction, a disagreement between nominative and verb, or some triviality too contemptible for rational minds to tolerate; yet powerful enough to let out the criminal unwhipt of justice, whilst the county is mulcted in heavy bills of costs. The Governor proposes a reform, under which it will be deemed sufficient that the indictment define the offence with sufficient precision to fix the crime upon the party charged with it.

We might dwell on other points, but will only refer to one more which has interest now in the midst of an agitation of a measure which threatens a revival of all those local hostilities and sectional rivalries which have unhappily been characteristic of North Carolina. The Governor does not hesitate to avow himself North Carolinian more bent upon building up our own cities and our own ports than lending aid to swell the consequence of other States. And with this view, he disapproves of any legislation that threatens interests which his feelings as a North Carolina Chief Magistrate impel him to defend.

We welcome Governor Jarvis to the high position his talents and his public services entitle him to with the satisfaction that is due to a knowledge that he has always proved himself competent to every demand upon his capabilities; a most signal exemplification of which is given by the striking expression of his views in his inaugural.

Views of a Leading Halifax Planter.

Correspondence of the News.

OAKLAND, Feb. 5.

I have just returned from the lower part of this county, (50 miles) and find the people's opinion of the legislation to be, viz: Geology retired, $3,000 to $5,000 saved. Cost what? By the action of the NEWS, printing cut down and $7,000 to $10,000 saved. Cost nothing. For the NEWS subscribe. For the Legislature proscribe. Halifax affairs, officially, financially and morally are in a deplorable condition. Our half mounted sheriff (process server) I suppose, will, by the Superior Court decision, be either fully mounted or pitched clear over the mule's head. In either case what a lovely time for the wire-workers! In your issue of the 31st, Superior Court Clerk condescends to take half the legislative $4.00, but gets back to the full $4.00. Why should clerks or registers get more than $500 or $600? Is a previous expensive education or priming required to fill the position? Are there not twenty men in each county capable, ready and anxious to take the place at even a less price than the above amount? But, sir, may not Superior Court Clerk have written the letter as a blind for Legislators? Do not some Registers receive $5,000 and some Clerks $5,000 to $8,000 a year? The Legislature should regulate this pay, otherwise there will be much inequality. How regulate? Start with a fixed sum, say $300, then reduce the fees or allow such a per centage on the fees as in a weak county will run the amount up to —say $500. In a strong county the large number of fees will carry the amount higher up. Thus each county will pay regulation fees, and the amount will be in proportion to the work done. The Register's fees scale in the same way. Superior Court Clerk says, that he is worked hard, so he may be; but it is not in the rain or broiling sunshine, and is well paid. He is also probably interested in a farm, store or other business, where the constantly incoming fees are very opportune and help to grease the wheels wonderfully. Chap. 105, sec. 40, Battle's Revisal insert 15c. instead of 30c. and ½ lb. of meat instead of 1 lb — ½ lb. is enough for a working, therefore too much for an idle man. The jailor here says, that he feeds his prisoners well, at less than ten cents per day with meat at 8 cts. per lb. and meal at 80 cts. per bushel, this is over fifty per cent profit—the county furnishing fuel. At present prices 6 cts. and 50 cts. the profit is too much, especially as the people foot the bill. Has a woman any legal claim on the labor of her child? What process can a Justice of the Peace issue to return the child to her? To entice or harbor should be a misdemeanor, with a fine and a payment of damage to the mother, failing which, a thirty day mittimus. These cases are getting to be frequent—children now are very bad and without some law of the kind will soon be utterly worthless. A little caution in wording the law, for the widow may give a step-father.

In the Justice of the Peace vacancies the Clerk should appoint until the meeting of the next Legislature—this is very important to some counties. Western members may not know how the shoe pinches on Eastern feet—they should think on the matter. Suppose the East gets disheartened or disgusted as is too much the case now, vide, two Congressmen lost and the Halifax white vote close, over six hundred short. Let the Legislature fail in its duty, and the "Third or Stay at Home Party" in 1880 will give the State offices to the Radicals—then two shoes will pinch. A property tax on dogs would yield about two cents per day, (Ver—Sap—Suf.) Dogs might be treated as vicious stock and subject to heavy poundage—only let the poundage be done just back of the ears with an axe. Something of this kind might be added to the present law. This case should be met, for it is an every day trouble. R. is much worried by a bushy half starved sow, the property of B. A. maims or kills her and is in for a misdemeanor and also has to pay B, the full value, say $3.00. B, not satisfied, maims or kills A's $100 mare, B. is in for misdemeanor, but A. gets no pay, because B. is behind the Justice of the Peace. Ex—Yort! Too much expense and trouble, especially the test should only be a pig or a calf. Give this case to the Justice of the Peace, with the damage to be paid by Township, if the defendant fails, and the defendant shall be sent to the Superior Court which shall pass on his qualification as a R. R. hand. Meet this case—it should be looked after.

Views of a Distinguished Gentleman.

Correspondence of the News.

MT. AIRY, Feb 4.

The people here approve and commend your course as journalists. They are especially pleased with your earnest efforts to improve the facilities for educating the masses, and with your able advocating judicious retrenchment and your outspoken defence of the people, and for your comprehensive and patriotic views of internal improvements.

Almost every part of the State is now or soon will be supplied either with railways or navigable streams, but there is one section in the most western part of the State, which which has been overlooked and long neglected. I was therefore very glad to see that the very able and faithful representative of Alleghany county had introduced a bill to extend the railway from Greensboro by Mount Airy to Ore Knob in Ashe county, for such a line would open up Ashe, Alleghany, Surry, Yadkin and Wilkes and Stokes counties to a living communication with the rest of the State. I say would open these counties up to a live communication with the State, for it is now practically true that Ashe, Alleghany and Surry counties have their business communications with Virginia, because their facilities for transportation, if they may be said to have any, are afforded by the Virginia and Tennessee Road.

It is a matter of very great importance to the State to have this section of country penetrated by a railway leading down to the water navigation at Fayetteville or some other point nearer and more accessible if possible; for, little as you have heard said about it, there is no section of equal area in the State so full of great and diversified sources of wealth. I speak advisedly. There is no section of equal area so rich in minerals. Ashe has copper and iron in large quantities. Alleghany has copper and iron in great abundance. Surry has copper, gold, tin and iron in vast beds and of the finest quality, and the finest granite for building purposes. Stokes has iron, coal, lime and marble, and many other valuable stones and minerals. Yadkin has iron and gold. Wilkes has iron, gold and copper. There is no section of the State of equal area superior in agricultural productions and in fertility of soil. In the counties south of the Blue Ridge the soil and climate are admirably suited to the production of wheat, Indian corn, tobacco, clover and both sweet and Irish potatoes, and to the growth of cherries, pears, peaches, and the very finest of apples. The apples that grow on the Brushy Mountains are fine. I have tried them out of Joshua Lane's orchard. But all along the South side of the Blue Ridge and up to the top and on the top apples grow just as fine as the best raised any where. There is no section of equal area equal in water power. The water power is practically unlimited, and unfailing, never drying up in summer, and rarely freezing in winter, and the power is varied from small streams easily applied, to the volume of water like the Yadkin River, and the Ararat. Now add to all these advantages the most delightful climate, free from all malarial influences, except perhaps a small part of Yadkin county.

With such a combination of advantages is it not a section to be developed? Mr. Vaughan's plan will open this country up and bring it into live communication with the rest of the State. The plan is practicable. The work can be done cheaply and the cost of construction will be light. From Greensboro to Mt. Airy the cost of grading will not exceed $2 000 per mile. From Mt. Airy to the Blue Ridge about 20 miles will not be so much as $2,000 per mile. There are several points at which the Blue Ridge can be ascended without any serious difficulty.

If completed, the railway from Ore Knob to Fayetteville would pay. The tonnage to and from Ore Knob is great now and will increase from year to year. From Ore Knob to Mt. Airy the direction would be nearly parallel to the copper land and would be easily accessible from the various copper mines which have already been tested on the great copper lead. In no very distant future iron and other metals would find outlet over the line.

There are cotton factories and cotton manufacturing enterprises at Mt. Airy and Elkin and other points which do now only a limited business for want of transportation, and they would increase the tonnage. And then add the agricultural exports and the necessary articles which are required to be imported into this section and you would have an amount of tonnage to begin with greater than is sent over the road from Kinston to Greensboro. This tonnage would rapidly and constantly increase.

Now let the State furnish convicts and build the road. The people along the line are poor now, but they will help. They have been faithful to the State at all times, and they want to see a scheme so purely North Carolinian carried out.

"That Mud Cut."

Correspondence of the News.

HENRY, N. C, Feb. 1st.

Your correspondent left this place on Tuesday morning last for the purpose of inspecting the mountain work on the W. N. C. Railroad, and after a trip of four days, on foot, we returned to-day. We first visited "Round Knob Stockade," Col S. J. Neal, who has in his charge one hundred and thirty convicts. At this place we got aboard of the gravel train. Capt. Pitt Terrell, Engineer and "Loss" of the gravel train hands, who has about forty convicts. After a ride of one mile we arrived at "Birtch Ridge Cut and Fill." The tunnel that was made through this ridge caved in and after a cost of five thousand dollars the tunnel was abandoned and a cut was made through the ridge at another point and the fill of the same name has been a very troublesome affair, the track has been laid down for some time, but the fill like the negro's cat fish, keeps "swinking" and has to be refilled from "Birtch Ridge." We proceeded to "Mud Cut," the great eye-sore in the way of the work. This cut is the hugh nightmare that so sadly disturbs the dreams of the venerable Senator from Guilford. We found Maj. Ballew with a gravel train and about fifty convicts busy hauling mud out of this cut and filling up the fill of the same name. Maj. J. W. Wilson, President of the Railroad, Mr. Clayton, Superintendent of the construction, and Maj. Atkinson, Superintendents of the convicts, were at the cut. The trustle from "Birtch Ridge" across the creek to "Mud Cut" is two or three hundred yards long and from fifty to seventy-five feet high and it will take all the mud in the cut, including the big slide to fill up the trestle, which is only a temporary affair and it will have to be filled with earth and if there had never been a slide in the "Mud Cut," dirt would have to been "borrowed" to more than the amount that has caved or will cave into "Mud Cut." So the slide is not so great an "eye sore" as it is represented to be, the opinion of Mr. Caldwell to the contrary notwithstanding, and the cave into "Mud Cut" has been very greatly exagerated. Mr. Caldwell, Senator from Guilford, in a speech in the Senate a short time since, said "that six acres first slid into the cut, then nineteen followed, and after spending thousands and thousands of dollars we never can run the railroad through the cut" and His Excellency, Governor Vance, in his recent message to the General Assembly, stated that he had been informed, that fifteen acres of the mountain side had slid into this cut. When we saw "Mud Cut," were reminded of fable we once read, the substance of which was that a great noise was said to be heard in a certain mountain and the inhabitants in all the adjacent country became greatly alarmed and gathered at the mountain to ascertain what made the great noise and only a little mouse crept out of the mountain. From what we heard and read of "Mud Cut" we expected to find about one half of Buncombe county, including at least one dozen candidates for Congress, slid into McDowell; but we were agreeably disappointed, instead of this we found "Mud Cut" about one hundred and fifty yards long, one hundred and thirty-five of which is graded and the cross-ties and iron laid down and the remaining fifteen yards will be graded in the course of two weeks, or in one month at the farthrest. The slide has been measured by two of the best engineers in the State and they say that there is but six acres which has moved from five to ten feet in the direction of the cut. You will hear from me again.

Hendricks will have to curb the enthusiasm of his followers a little or they may smoke out a latent Tilden element in the proud old State of Indiana that will do Thomas no good when the time to run comes around.

A great benefit has been secured to the poor by the introduction of Dr. Bull's Cough Syrup; for it now takes only 25 cents to cure a cough, when formerly Doctor bills alone amounted to dollars.

"A North Carolina System."

Correspondence of the News.

CHARLOTTE, Feb. 2nd.—I very cordially endorse all you have said about a "North Carolina system." But, upon serious reflection, isn't it a delusion? I am a North Carolinian, and I am proud of it. But it takes a mighty effort to get up any enthusiam on a "North Carolina system" of railroads. Why, sir, what has the State of North Carolina been doing on the Asheville & Spartanburg Railroad? Nothing less than building the road with its convict labor. What does that road do for the "North Carolina system"? Utterly annihilates it, and beggars the Western North Carolina Railroad, which has cost the State millions, and is likely to cost as many more. That great undeveloped section, so abundant is mineral and agricultural resources, about which so much has been written, is penetrated by a hostile corporation, (fostered by the State,) directing its rade to Charleston.

Now why should Richmond and Charleston monopolize Western and North Western and Piedmont North Carolina? Why not give Norfolk a chance?

While on the subject you will pardon me a few reflections: Wilmington strenuously opposes the extension of the Raleigh & Augusta Air Line to Charlotte. The ground of the opposition is that a competing line will direct the trade that belongs to Wilmington by reason of geographical considerations to Norfolk. This, they say, will destroy the commerce of our only seaport. All of which talk sounds mighty nice. There is another side to this question, however. What Wilmington apprehends from competition is already a reality. And this dreadful reality Wilmington has brought on its own head. By "pooling" on Cotton with the Piedmont Air Line, the Carolina Central Railway has entirely cut off Wilmington from all participation in the cotton trade east, south, and west of Charlotte. The per cent the Carolina Central receives by virtue of the "pool," from the Piedmont Air Line, pays that road better than hauling the cotton to Wilmington. Then what do we see? Wilmington protesting that its foreign commerce is being ruined? Not at all. That her valuable cotton trade is being directed and carried to Richmond and Norfolk, cannot be denied. The Carolina Central has stopped its freight trains and is growing rich off of the per cent it receives under the "pooling" arrangement with the Piedmont Air Line, notwithstanding the road is bankrupt and in the hands of three receivers! Competition cannot do Wilmington more hurt than its own roads, controlled by Wilmington people, are doing and doing to the great hurt and injury of other sections. Charlotte does not expect to be very greatly benefitted by the extension of the Augusta Air Line. While she will get some of the valuable trade of Stanly, Montgomery, and Cabarrus, the great bulk of it will go north. Trade never goes backward. At least Chatlotte does not feel so deeply interested as to organize a lobby in behalf of the proposed legislation. But Col. Brown's efforts are cordially endorsed here.

This Railroad fight presents another aspect. It is seriously charged that the Carolina Central in opposing the extension of the Augusta Air Line is only trying to force that road to buy the C. C. Railroad. On the other hand the charge is made that the Augusta Air Line is playing at the same game, its purpose being not to extend the road to Charlotte but to force the Carolina Central to just and reasonable time in the shipment of freight. The opinion is growing that the fight is altogether a selfish one, and is not likely to result in any substantial good whatever may be the outcome of Col. Brown's bill. But that bill should not be defeated upon such considerations as a "North Carolina System."

It is a mistaken sympathy, Mr. Editor, you so cordially entertain for that system. And were it not so, most emphatically, Wilmington is the last place, under the circumstances, to invoke protection from that system. What power Wilmington may have to break its "commercial fetters" and wrest the grasp of an inimical corporation, for such the Carolina Central is, I am not advised.

Plea for Justice.

From the Chatham Record.

The Raleigh and Augusta Air Line Railroad Company have a Bill now pending before the Legislature, asking permission to extend their road from Sanford to Charlotte. This is strongly opposed by the citizens of Wilmington, because such an extension would greatly cripple the trade of that city, while on the other hand it is earnestly urged by the citizens of Raleigh. Without wishing to take part in the controversy between these two cities, we will simply speak of the claims of the people of Chatham, and call upon the Legislature to compel this Railroad to do a simple act of Justice. If the Legislature is disposed to allow this road to be extended to Charlotte, we insist that it be extended from Lockville, instead of Sanford, and run along the northern side of Deep River by the gulf; or else that the R. R. Company purchase and convey to the State the works of the old Cape Fear and Deep River Navigation Company. Our reasons for this must strike every fair minded man as eminently just, and we will give them as briefly as possible.

In February 1861, the General Assembly chartered a Company, to be called the "Chatham Railroad Company," to build a railroad from Raleigh to the Gulf in Chatham county, for the purpose of developing the great mineral wealth of the Deep River Valley. This was the only object intended, and for this purpose alone was the charter granted. And though the war immediately began, and all works of internal improvements were suspended, yet it was thought to be so great a "military necessity" to build this road and thus open the coal and iron mines of Chatham for the use of the Confederate Government, that the contractors and others engaged in building the road were all exempted from military service. The close of the war found the road graded nearly to Lockville, when work was suspended until 1868. The Radical Convention of that year gave to this Company all the works, franchises, etc, of the C. F & D. R. Navigation Company, for the purpose of aiding them in building their road to the coalfields. This Navigation Company was chartered many years before the war for the purpose of opening by slack-water navigation the two rivers as far as up the coalfields, and on this work the citizens of Chatham spent thousands and thousands of dollars, from which they have derived no benefit whatever. For the State being the largest stockholder, had the works sold, and bought in, thus "freezing out" the private stockholders. The State then, through the Convention of 1868, gave away all this valuable property to this Railroad Company; and for what purpose? It was distinctly stated to be, for the purpose of aiding in building the road to the coalfields. And what did the Railroad Company do? They immediately transferred this valuable property, which had cost the citizens of Chatham and the State of North Carolina hundreds of thousands of dollars, to the Deep River Manufacturing Companies, whose President was J. M. Heck, and chief stockholder, G. W. Swepson! (See Report of Fraud Commission, Page 109.)

When the Democrats controlled the Legislature for the first time after the war, they granted a charter (chapter 189 Laws 1870-71,) to build a railroad from Lockville through the middle of Chatham to Cane Creek, and in said charter (see sections 11 and 12) released the Chatham Railroad Company from their obligation "to have the Gulf as a terminus in the Deep River region;" Provided, and "upon the condition only," that the said Railroad Company shall subscribe and pay $125,000 towards building the proposed road to Cane Creek. This proviso was made, because the Railroad Company wished to change its direction and run towards Augusta, instead of the Gulf and coalfields of Chatham as it was required to do in its first charter, and for which the State had given the River works; and to compensate the people of Chatham for this change of direction, that they should receive aid from this Railroad to help the building of another road through their county. At first the Chatham Rail Road Company seemed quite willing to pay the $125,000, and be released from the requirement to go by the Gulf, but "a change came over the spirit of their dream" and they refused to pay this sum, and by some means obtained at the next session of the Legislature (chapter 11) permission to extend their road to Augusta without going by the Gulf, and also very properly changed the name of the Company, for it would have been a bitter mockery to continue to call it the "Chatham Railroad." The road was then diverted from its original purposes, and run through the pine barrens of Moore and Richmond counties to Hamlet. So that, the people of Chatham having been defrauded of their river works and railroad, by the action of the State and this Company, think that they have just and equitable grounds for insisting that the State, through the present Legislature, should require the R. & A. A. L. R. R. Co., to carry out the purposes for which the original charter was granted, and the valuable navigation works on Deep River given. We demand this, in the first place, as a matter of simple right and common fairness; but in addition thereto, we think it is to the interests of Raleigh and the State generally to have the road extended (if it is to be extended at all) along the Deep River Valley by the Gulf, and to cross said river near the Moore and Randolph line. This would be as near a line to Charlotte, as the line from Sanford, and would run through a much better country. It would go through the centre of the inexhaustible coalbeds lying contiguous to Deep River, and open up a most productive section.

We hope our Legislators will duly consider this matter, and before granting additional favors to this Company, remember, that they should be just before they are generous.

How Sherman Whipped Conkling.

Cincinnati Enquirer,

Secretary Sherman took up the cudgels in behalf of the President and made it his own personal fight—the chance to make terrible inroads among Conklings followers; and the promise of liberal patronage wooed from the New York Senator those who were classed as his reliable friends. Sherman drove his bargain cutely. Those whom he could not persuade to vote outright against Conkling he persuaded to dodge and between the dodge and his weak-kneed friends Conkling was beaten. Even up to the hour of the Executive session to-day Sherman and his agents were in every corridor of the Senate, with directions to specially beset and importune those who were wavering

Vegetine

FOR

CHILLS, SHAKES,

FEVER AND AGUE.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—

Der Sir,—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with Hip-joint disease. My son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did not help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal," that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a younger son, fifteen years of age, who is subject to chills. Whenever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like the most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints I think it is the greatest medicine in the world.

Respectfully, MRS. J. W. LLOYD.

VEGETINE.—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

Vegetine is the great health restorer—composed exclusively of barks, roots, and herbs. It is very pleasant to take; every child likes it.

CINCINNATI, O., April 9, 1877.

H. R. Stevens, Esq.:

Dear Sir,—I have used your Vegetine for Nervous Headache, and also for Rheumatism, and have found entire relief from both and take great pleasure in recommending it to all who may be likewise afflicted.

FRED. A. GOOD,
185 Mill St., Cinn.

Vegetine has restored it to health who had been long and painful sufferers.

VEGETINE

Druggists' Testimony.

Mr. H. R. Stevens:—

Dear Sir,—We have been selling your remedy, the Vegetine for about three years, and take pleasure in recommending it to our customers, and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge. It certainly is the ne plus ultra of renovators.

Respectfully,

WORM SPECIFIC

OR

VERMIFUGE.

SYMPTOMS OF WORMS.

THE countenance is pale and leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy, not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally difficult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper variable, but generally irritable, &c.

Whenever the above symptoms are found to exist,

DR. C. McLANE'S VERMIFUGE will certainly effect a cure.

IT DOES NOT CONTAIN MERCURY in any form; it is an innocent preparation, *not capable of doing the slightest injury to the most tender infant.*

The genuine DR. McLANE'S VERMIFUGE bears the signatures of C. McLANE and FLEMING BROS. on the wrapper. —:o:—

BEWARE OF IMITATIONS.

Each box has a red wax seal on the lid, with the impression DR. McLANE'S LIVER PILLS.

Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. DR. DIAMONDS

IN SOLID GOLD MOUNTINGS.

ONE DOLLAR ONE DOLLAR

THE WONDERFUL LEFEVRE TRUE MARK PARIS DIAMONDS

Lefevre Ring, $1. Set of Studs, $1. [The Shah] Stud, $1. Lefevre Ear Drops, $1.

THE ONLY PERFECT FAC-SIMILE OF THE REAL DIAMOND IN THE WORLD.

Pronounced by the Academy of France that *M. Lefevre has really obtained artificially the true diamond.* The basis of these gems are pure crystals found in the Sierra Nevadas, from whence they are exported to the Lefevre Laboratory in Paris, France, where they are submitted to a chemical and voltaic process.

BY WHICH THEIR SURFACES ARE COVERED WITH A COATING OF PURE DIAMONDS, imparting to them all the BRILLIANCY, HARDNESS, and refractive qualities of the natural diamond, and making them as desirable for WEAR, BRILLIANCY, and BEAUTY, as the veritable gems themselves. The Ring, Studs, and Ear Drops, as displayed in this announcement, are accurate engravings of SOLID GOLD MOUNTINGS, CONTAINING THE WONDERFUL LEFEVRE DIAMOND, warranted by certificate U. S. Mint assay.

ON RECEIPT OF ONE DOLLAR we will send free, by REGISTERED MAIL, to any address in America, either article as above represented. Our "Book on Diamonds," with illustrations of artistic Diamond Jewelry in solid (14 k.) gold, mailed free.

I have seen many imitations of diamonds, but never any that could equal the Lefevre Brilliant.—M. ELLROY, Stamford, Conn.

I am in receipt of a pair of the Wonderful Lefevre Ear Drops, for one dollar; to say that I am pleased with them hardly fills the bill, they are simply elegant.—ANDREW MORRIS, Hornellsville, N. Y.

The Wonderful Lefevre Diamond Ring, for one dollar, came to hand this morning. It is really elegant, giving entire satisfaction, and elicting wonder and admiration from all who see it.—W. H. REDDY, Martinsburg, W. Va.

The Lefevre Diamonds, mounted in solid gold, are truly marvelous.—R. F. AVERY & SONS, Home and Farm, Louisville, Ky.

The eminently successful experiments of M. Lefevre silences all doubt of the artificial reproduction of the true diamond.—M. DU FRESNOY, the great French Scientist.

The Lefevre Diamond most effectually disturbs the slumbers of the possessors of costly gems.—Journal of Science.

We guarantee the Wonderful Lefevre Diamonds for One Dollar to be mounted in Solid Gold, and will cheerfully refund the money if found unsatisfactory. Address all orders to the

Congress.

WASHINGTON, Feb. 6.—Blaine, of Maine, presented a memorial of the Hill Manufactury Company, Lewiston Mills, Anoscoggin Mills, Continental Mills and other manufacturing companies of Maine, asking an appropriation for mail service between one or more of our Atlantic ports and South American ports, believing the money will be repaid by the increase in commerce. Mr. Blaine said the petition came from manufacturing interest representing ten or twelve million dollars capital, employing several thousand persons, and expending at least three million dollars a year in wages.

It was an encouragement of the manufacturing interest of proposod lines which he was glad to see. The petition was referred to the Committee on Appropriations.

Paddock, of Nevada, submitted a resolution instructing the Committee on Agriculture to inquire in regard to certain reports recently put in circulation in this country and elsewhere, concerning infectious diseases among horned cattle in the U S. Agreed to.

Wallace, of Pennsylvania, submitted a resolution requesting the Committee on Commerce to report House bill known as the Inter-State Comerce bill, at the earliest moment. Laid on the table. He gave notice that he would call it up at an early day.

HOUSE.—Williams, of (Ala.), presented a memorial of the Alabama Legislature for the admission of quinine duty free. Neal from the Committee on Territories, asked leave to report a bill for organization of the Territory of Ogloham. Objection made.

House discussed in Committee of the Whole the army appropriation bill. White's amendment, offered yesterday and comprising most of the ieature of army organization bill, was adopted. Hewitt moved to amend the revised statutes so as to espunge therefrom the provision that the army shall be allowed to be at the poles on election days to keep peace. Adopted, 93 to 90. Pending the consideration of an amendment to transfer the Indian Bureau to the War Department the House adjourned,

The Tenth Census.

WASHINGTON, Feb. 6.—The bill providing for taking the tenth census was agreed to. The bill as passed provides that a census of the population, wealth and industry of the United States shall be taken on or before June 1st, 1880. It provides for the appointment of a superintendent of the census by the President, and also the necessary clerks and copyists in his office. The Secretary of the Interior is directed to appoint, on or before the first of April, 1880, one or more supervisors of the census within each State and Territory, such persons to be residents of such State or Territory. The total number of supervisors is not to exceed 150. The supervisors are to apportion their districts, and designate to the superintendent suitable persons to employ as enumerators. Such persons to be selected solely with reference to their fitness and without reference to their political or party affiliations. Each supervisor is to receive $500 upon the completion of his duties. Enumerators are to receive two cents for each living inhabitant reported, two cents for each death reported, ten cents for each farm and fifteen cents for each establishment of productive industry enumerated and returned. The sub-division assigned to each enumerator shall not exceed 4,000 inhabitants according to the census of 1870, nor contain less than 3,000 where the last preceding census shows the inhabitants thereof.

The French Republic.

PARIS, Feb. 6.—An official note is published on the subject of the Russian plague. It says that the danger of its extension to France by land is not serious and measures will be taken to prevent its transmission by sea. The government will also participate with other powers in studying the character of the epidemic, and the best means for combatting it.

The Republique Francaise, says President Grevy's message, which will be read in the Chambers to-day, will not be accompanied by any ministerial statement. The message will affirm that it is necessary that the Executive of the government should keep itself in accord with the will of the nation, so that the people may pursue their labors free from all auxilty respecting the form of government. Measures will be announced intended to throw oblivion over the past, and the message will conclude by calling upon all citizens to manifest a spirit of concord and confidence with the government.

That Pension Grab.

Three propositions looking to appropriations or raising means to meet the expenses of the Arrears of Pension Bill were introduced in the House Tuesday. Cutler led off with an actual appropriation of $100,000,000. He is evidently of those who believe that the drain upon the Treasury is to be very heavy. White, of Pennsylvania, puts the amount needed at a much smaller figure, and thinks that $20,000,000 will be ample. He, too, proposed an absolute appropriation. The third proposition was by Burchard, of Illinois, and that was to authorize the sale of four per cent. bonds to the amount of $40,000,000, the proceeds to be devoted to the payment of arrears. His bill failed, although it got a very large majority (140 to 81;) but a two-third vote was required to pass it. It is plain therefore, that if this bill shall ever be reported from a Committee when a majority vote can pass it, it will be successful. Of the negative vote there were three Republican votes, viz: Brogden, Butler and Kelley, and nine Northern Democrats, viz: Cobb, of Indiana; Eckhoff, Mayham, and Hewitt, of New York; Knapp and Sparks, of Illinois; Morse, of Massachusetts; Patterson, of Colorado, and Wigginton, of California.

Was occasioned by the explosion of a kerosene lamp in Tupper's church. Manual Jones one of the congregation, was burned about the neck. The explosion caused quite a panic, and the church was quickly emptied. The various fire companies were on hand, but were not needed.—Raleigh News Oct. 2nd, 1177.

The action of the Legislature, repealing the charter of the Louisiana State Lottery Company, does not dispose of the question. The Death Rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late, that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs, Boschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950 000 bottles sold last year without a single failure known. jan 26-tf. *

Rev. Mr. Allison, of Jamaica, L. I., suffered for years with a sore throat, which clergymen and speakers are subject to. He obtained immediate relief from Giles' Liniment Iodide of Ammonia.

The Value of Pure Wine in Sickness.)

The chief difficulty with reliable wines has been their scarcity and exorbitant price, but this has been removed by the introduction of a Pure Native Wine, produced from the Oporte grape by Mr. Alfred Speer, of New Jersey. We understand he has submitted his Wine to the test of many of our celebrated physicians, and all concur in its purity, medical propieties and superiority to the best imported Port Wine. Most of them prescribe it in cases of debility, affections of the kinneys, and chronic complaints, requiring a tonic, sudorific or diuretic treatment.—Examiner. Salesroom 31 Warren street, New York.

A Legitimate Triumph in Medicine.

Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes; yet, all the while, a more insidious, but no less fatal foe, enters thousands of households every year and carries off the flower of the family in the early flush of manly youth and budding womanhood. People call it presumption, or "decline." It is not, in most cases, the tubercular phthisis or consumption of the lungs, which is the peculiar malady in climates like those of the British Islands and New England, but a general decay or arrest of the vital processes of nutrition. All the doctors agree that there is no remedy for this but COD LIVER OIL but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely overcome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is agreeable to the taste and an unequalled nutrient and tonic for the body nerve and brain.
